

1RU & 2RU 19" Cable Management Rail 12 slots with cover - Black Plastic

Codecom 19" Cable Management Rail is designed for use within server racks and cabinets for effective and neat cable management of cables both copper and fibre. This quick and easy to install product is a simple solution to resolving cable routing and management issues within a confined space.

The Cable Management Rail consists of 12 cable entry and exit slots on the top and bottom to manage the flow of cables from panels or devices above and below, and also has integrated slots in the rear to allow cables to pass through front to back.

Features

- ✓ 19" Rack Mount
- ✓ 1RU and 2RU options available
- ✓ Flame retardant ABS material
- ✓ Quick and easy installation
- ✓ Lightweight
- ✓ Flexible – Copper & Fibre
